

## Thinking Points

The purpose of these questions is to help guide your thinking and conversation about Iowa Core Curriculum. This is a working document that was designed to acknowledge your school's strengths, as well as areas of need.

School or District: \_\_\_\_\_ Your Name: \_\_\_\_\_

Component	Comments/Next Steps
What administrative supports do you need to have in place to successfully implement instructional decision making?	
What evidence do you have of a guaranteed and viable curriculum?	
Do the data suggest most (>80%) of the students in your school or district are meeting grade level expectations? How many are struggling? How many are accelerated?	
Do you have a structured system to provide flexible grouping for struggling students? Accelerated students? Explain.	
Who are the teachers identified who can work with students who are accelerated or are struggling students within general education?	
What screening measures are currently in place?	
How do you monitor the progress of all students throughout the school year? How often?	
What measures are used to provide more in-depth information regarding a student's abilities?
